

Jack Curtin

Full Stack Software Developer

Chicago, IL 60647
(803) 429-5387
jackcurtin94@gmail.com

EXPERIENCE

General Assembly Software Engineering Immersive Student

March 2021 - May 2021

Engaged with a fast-paced, 12 week course in full stack development, learning the ins and outs of building complete web applications using Angular and Java Spring Framework. 600+ hours of coursework, including pair-programming labs, homework, and 3 cumulative projects.

Move-Tastic, Chicago, IL — IT Consultant

April 2020 - February 2021

Maintained tablets and other devices regularly used in the field using MDM software. Tracked and optimized computer, printer, and network configuration for the entire office.

Reckless Records, Chicago, IL — Floor Manager

October 2017 - March 2020

Responsibilities included opening/closing the store each shift, purchasing used-product from customers, counting the money, and filling out the necessary paperwork.

EDUCATION

Loyola University Chicago — Film and Digital Media | B.A.

August 2013 - May 2017

Universidad Alberto Hurtado, Santiago, Chile

Summer 2016

Studied abroad for Documentary Production

SUMMARY

Full Stack Developer with a diverse background and an eagerness to learn. With many different professional and personal creative pursuits, I have proven I am adaptable to whatever my current position requires.
